AQYR JOINS THE SATELLITE INDUSTRY ASSOCIATION

Washington, D.C., October 17, 2018 – The Satellite Industry Association (SIA) today announced that AQYR Technologies (AQYR) has joined SIA. AQYR designs and manufactures highly portable GBS and 2-way Ku/Ka/X-band full auto-acquisition, single-case, portable ground terminals. AQYR is a land terminal provider for Tactical SATCOM Solutions. The Company's intuitive, patented, auto-acquire terminals are used by Defense as well as NGOs, Public Sector, Foreign Governments, Commercial & Enterprise markets.

Earlier this year, AQYR announced the introduction of a new family of satellite terminals; the TARANIS antenna systems. All of AQYR's terminals were developed using the expertise and experience AQYR used in the development of its AN/PRS-11 receive suite used on the Global Broadcast Service network for the U.S. DoD. The Company also recently announced the appointment of Virgil Russell as their new Director of Sales and Marketing. In this role, Mr. Russell will be responsible for meeting company growth objectives.

"SIA is very pleased to announce AQYR as the newest member of the Association," said Tom Stroup, President of the Satellite Industry Association. "As a leading designer and manufacturer of satellite terminals, AQYR, and its multi-band, auto-acquisition expertise, is a welcome addition to SIA as the Association continues to grow and expand its role as the voice of the commercial satellite industry."

"AQYR is excited to join SIA," said Jay Davison, President of AQYR Technologies. "As AQYR continues to grow in the commercial satellite market, we view SIA as a key industry partner to help us achieve our goals."

###

About AQYR Technologies

AQYR is a land terminal provider for Tactical SATCOM Solutions, used by Military Defense, Public Sector, Foreign Governments, Commercial & Enterprise markets. AQYR designs and manufactures highly portable GBS and 2-way Ku/Ka/X-band full auto-acquisition, single case portable ground terminals. These intuitive, patented, auto-acquire terminals are developed from our 14 years' experience as the Tactical SATCOM Systems Provider.

About The Satellite Industry Association

SIA is a U.S.-based trade association providing representation of the leading satellite operators,

Satellite Industry Association – 1200 18th Street, Suite 1001, Washington, DC 20036
